

Part 11 Differentiation 2

Stationary points	217
Second derivative test	220
Solving practical problems	224
Increasing and decreasing functions	229
Review exercise 11	230
Examination exercise 11	234

Part 12 Integration 2

Definite integration	237
Area under a curve	238
The trapezium rule	243
Review exercise 12	246
Examination exercise 12	248
Summary of important results and formulae	273
Index	279
