

MULTIPLY AND SCORE

A game for up to 4 players

- i Each player chooses a different coloured counter and places it in a corner square.
- i Take it in turn to move one space in any direction—up, down or diagonally.
- i Throw a die to decide what to multiply by—1, 2, 3, 4, 5 or throw a 6 to x 10!
- i You score the number you land on times the number on the die. For example, if you land on 3 and throw a 5, you score $3 \times 5 = 15$
- i Keep a running score. The highest score wins
- i Play finishes when one player goes into the square opposite the one they started in.
- i Only one counter can be on one square at a time.

○	1	6	4	3	○
3	2	8	7	2	1
4	7	9	5	8	6
6	8	5	9	7	4
1	2	7	8	2	3
○	3	4	6	1	○

Player 1	Player 2	Player 3	Player 4
